Introducing MYMETER™ from Brainerd Public Utilities

Conserve Energy! Save Money!

MYMETER™ translates complex consumption, weather and billing data into an intuitive graphical format that is available daily to Members.

MYMETER™ provides critical energy usage information to allow business and residential Members to manage and reduce energy costs in their homes and businesses.

MYMETER™ is conveniently accessed through the home page of the Brainerd Public Utilities Web site. Members can log into MYMETER™ with their account number name and email address.

Once logged in Members can:

- View a graphical representation of hourly, daily, and monthly usage.
- Compare monthly usage to others in your neighborhood and to the entire utility population.
- Take an “energy challenge” and set an energy saving goal. The challenge lasts 6 months and tracks Member’s results in both a graphical and a tabular fashion.

- Have the ability to set “markers” to note efficiency upgrades. For example, when buying a new appliance Members can mark the date and MYMETER™ will show how much energy is saved.
- Compare energy use fluctuations to changes in temperatures.
